The Return of Blood Eruptions

No Reason Why Anyone Should Suffer Such Disheartening Experience.

No case of poisoned blood is ever cured until the last destructive germ has been eliminated from the system. And the only remedy that is assimilated in the tissue and stimulates cellular activity to overcome harmful germs is the famous S. S. S. A few doses of this wonderful blood purifier will start such pronounced activities in the cellular tissues of the body as to soon show decided changes in the skin. The skin is but a fine network of tiny blood vessels, and the specific action of S. S. S. is declared by eminent authorities to be a pronounced stimulation of the activity of these cells. Certain it is that in a surprisingly short time even the worst skin eruption shows a most remarkable change; it begins to dry up; the skin peels off in tiny flakes, and soon a layer of clear, healthy and firm tissue results. The reason for this is in the peculiar stimulation of S. S. S. which enables the cells in the skin to select from the blood the nutrient it requires for regeneration. Not only this, but if from the presence of some disturbing poison there is a local or general interference of nutrition to cause boils, carbuncles, abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence. This fact has been demonstrated in cases of severe skin eruption that had seemed to be incurable. You can obtain S. S. S. at any well stocked drug store, if you insist upon it, but be sure you are not talked into something else claimed to be "just as good." S. S. S. is prepared by The Swift Specific Co., 111 Swift Building, Atlanta, Ga.

EL PASO CATTLE MARKET

Phoenix, Ariz., Nov. 24.—Water is as free as air in the Salt river valley now. Farmers are being urged to use every drop possible on their lands and are not being charged a cent. The reason is that no water is being drawn from the Roosevelt reservoir which is filling at the rate of nearly 2,000 acre feet a day, and more water is coming down the Verde river than the farmers are utilizing. The reason that no charge is being made now is that if the farms are watered thoroughly they will draw much less water from the reservoir later when the flow from the Verde is insufficient for their needs.

TROOPS TO QUELL INDIANS AT GALLUP

Gen. Scott Leaves There With Marshal Galsinha to Confer With Navajo Indian Agent.

Albuquerque, N. M., Nov. 24.—Traveling in two special trains, four troops of the 12th United States cavalry, accompanied by a detachment of the hospital corps and a commissary wagon train, passed through here on their way to Gallup, where today the troops will detain and march 100 miles overland to Shippage agency, on the Navajo reservation, to quell the reported incipient uprising among the Indians there. The troops are equipped to spend the entire winter on the reservation if necessary. It is believed, however, that peace will be quickly restored on the arrival of the cavalry. Gen. Hugh L. Scott, ordered to the reservation by the war department, has reached Gallup, where he joined deputy United States marshal Galsinha, and the two started by automobile for Shippage, where Gen. Scott will confer with agent W. T. Shelton and map out a campaign for subduing the renegade band of Navajos encamped on Beautiful mountain. For several weeks the Indians have defied the authorities to arrest several of their number of charges of bigamy, rioting and assault.

LIQUOR BONDS MUST CONFORM TO NEW ACT

Austin, Tex., Nov. 24.—According to information received by the attorney general's department some of the county judges throughout Texas are approving retail liquor dealers' bonds that do not contain all of the new conditions imposed under the new civil 9:30 closing law. The new bonds, in certain instances, are merely a reiteration of the conditions imposed under the 9:30 closing law, the criminal act. In this connection, the attorney general's department holds that the new bonds approved must contain all of the requirements imposed under the new law. This is necessary in order that this new law may be uniformly enforced.

"If the bonds now on file contain all of the conditions of the new act, it would not be necessary to refile these bonds," says assistant attorney general Keeling. "However, this is a question for the liquor dealers and county officials to work out themselves; that is to say, as to whether or not the bonds conform in all particulars to the new act. Spectra attention of the county judges of the state is directed to inquire into this feature."
